Memory Verse This Week:

Psalm 16:11

"You make known to me the path of life; in **Your** presence there is fullness of **joy**.

(Joy is our Character Trait)

Sight Words to Work On

We are working on learning these words and finding them in books.

The it

ll & ck

This will be a review week as we prepare for the end of the quarter! The ll and ck are twin sounds. They talk at the same time in words and say just one sound.

These are the first "special sounds" that we are learning.

~Recess~

Cooler weather is here at least in the mornings. Our morning recess can be pretty chilly. Please make sure that your student is well equipped for the temperature.

Phonics...

We are working hard at remembering to "read" from Left to Right. We are beginning to practice sight words using a key ring with words.

Students are reading simple (CVC words) in school.

Mathematics...

We are building the teen numbers with tens and ones. And we hope to begin working with MobyMax this week.

Science/Social Studies ...

This is final days of our "Apple Picking Days." We have talked about how apples grow and took a virtual field trip to a Colorado Apple Orchard.

Fall Field Trip to Fahrmeier Farms Wednesday, October 19th

Students **Please send in your Field Trip Money asap \$7.00** per Child.

Thank you parents for volunteering to help with transportation!

Library With Mrs. Gooseman

Begins This Tuesday! October 11th!

This is also Mr. Miille's Birthday!

(Let's be extra nice to him!)

Please see pg 2 for some items that we could use from home as we study and prepare for our Field Trip.

Classroom Needs

~ I am looking to **borrow 2-5 Squash and Pumpkins** in varying sizes for the kids to measure in the Science Center. From Wednesday

Oct. 12- Oct.18th

If you would like to help please text Miss O. so we don't end up with too many. :o) (Hey that sounds like a book.)

We will be very gentle and will measure and weigh the pumpkins.

~ We REALLY could use an **extra set of hands** on Wednesday October 12th we will do a blind folded **Apple Taste Test** guessing activity. (Timing for this activity is flexible depended on the availability of parents.)

~ We are in need of some new puzzles. 24-26 puzzles are best. Familiar character puzzles from movies and T.V. are great!

~ We are in need of **Old Business Magnets** (the thin business card size that are easy to cut.) We will use these to make learning games.

Thank you so much for your support of our learning!
